**H2O Productions and Leadership High School Presents:  
"Toxic Stress, Toxic Streets"**

We're proud to share "Toxic Stress, Toxic Streets," a music video from the brilliant and talented students of Leadership High School in collaboration with H2O Productions about the effects of Adverse Childhood Experiences on adolescents in Bayview Hunters Point. Leadership High School is currently collaborating with the CYW to conduct a research study on ACEs and how they affect academic performance among teens in San Francisco. The survey will gather ACEs data on 9th and 10th grade students and compare results from the Sunset, Excelsior and Bayview districts. We are honored to work in partnership with these courageous students!
